## Hobbies

Psst... I love to learn from senseis! I trained in a kitchen to be a sushi chef, which has taught me alot about precision, team work and delivering under pressure. Previous to coding, I have around 8+ years of experience working in restaurants and construction.

# Education

## Frontend Developer, 2021-2023

### Hyper Island, Stockholm

- Technical skills (HTML, CSS, JavaScript, TypeScript, React, Tailwindcss, Node.js, Express, npm, api's, GIT)
- Client communication
- Project management
- UX, UI and design principles
- Agile development and methods
- Individuall and group projects

## Upper secondary school, 2013-2016

Business progam, Wargentinskolan, Östersund

# Work

## G-Loot, 6 months - Internship. 2022.09 — 2023.03

React | Typescript | Tailwindcss | Node.js | Webpack | Docker

Frontend intern tech lead. Mainly worked with improving and updating an internal tool for administration of users on the main platform. Agile sprints with a close team collaboration across the company. Continuous improvements to the G-Loot website.

## Client design sprint, 5 weeks - Group. 2022.02 — 2022.05

Figma

Redesign of Doc Lounge's website. I was in charge of the communication between the client and my team. Hired after sprint to continue and finalise a responsive design for the rest of their website.

# Academic achievements at HI

## “Portfolio”, still improving it - Individual

Next.js | Typescript | Tailwindcss | MongoDB

Created my portfolio to showcase some of the work I've done in school so far.

## “Code & collaborate”, 5 weeks - Group — 2022.04

Node.js | Express | Next.js | Javascript | MongoDB

Built an e-commerce shop. The main focus was pair/mob - programming, TDD and Scrum sprints. Acted as scrum master for one week.

## “Data Interaction”, 4 weeks - Individual — 2022.03

Typescript | Node.js | Express | React | Tailwindcss

Built an e-commerce shop — first real peak into backend.
